

Free City WiFi Hot Spots

Corpus Christi is a digital city

Stay connected with free wireless hotspots throughout the city.

Recognized as a trailblazer in the digital world, Corpus Christi was one of the first cities to create a city-wide wireless fidelity network making us one of the most connected cities in the world. In fact, all 147 square miles of our city is blanketed by this sophisticated network for city government use. Feel free to use our digital network at any of our designated public sites listed below.
