Owen Fitzsimmons, Coastal Bend Bays & Estuaries Program

Owen Fitzsimmons is a senior conservation biologist with the Coastal Bird Program at the Coastal Bend Bays & Estuaries Program. The Coastal Bird Program works to conserve, protect, and promote coastal birds and their habitats. Working with partners throughout North America, the Coastal Bird Program uses a variety of trapping, tracking, and monitoring methods to learn more about highly imperiled shorebird species that depend on the Texas coast for part of their life cycles. Come join us to learn more about the CBP's research and conservation efforts and the fascinating habits of some of the world's most incredible flyers!

- This program is FREE of charge and open to individuals and families.
- Class size limited to 24.
- Walk-ins welcome on a first come first served basis.
- This program is for individuals and families with children ages 12 and older.
- To reserve a space please register at <http://register.ccparkandrec.com>
